

1 - STRAUSS® GROUP RAISED LOGO MARK

To the right is the Strauss® logo mark. It is the principal mark that represents Strauss® Group Raised. It should be used to represent the brand to all audiences.

2 - LOGO MARK MINIMUM SPACE AND SIZE

For maximum impact, a set minimum space should separate the Strauss® logo mark from all other graphic and typographic elements. This area forms an invisible frame around the logo.

The minimum space around the Strauss® logo mark is based on the height of the “S” within the logo. The logo should have a consistent minimum space of the “S” height on all four sides.

Please note that the minimum size requirement of the logo mark is one inch wide.

3 - LOGO MARK ON BACKGROUND

For maximum impact, a white rule, the same thickness as the rule within the mark, should separate the Strauss® logo mark from background color or photography. This rule forms a frame around the logo.

4 - ACCEPTABLE LOGOS

The Strauss® logo mark may be applied in the specific brand color or black and white.

To the right is a chart of the approved color appearances for the logo mark.

The logo mark may be printed in Strauss® Brown (process color or special mix ink) or black. Please see the Brand Color Palette section for specifications.

6 - TAG LINE AND TYPOGRAPHIC TREATMENT

The Strauss® Group
Raised tag line embodies
the brand promise.

The tag line may be used
as a headline for advertising,
promotions and in packaging.

Use the tag line art as shown;
do not substitute with another
font outside of the font family.

At times, on packaging
or labels, the “all Natural”
statement can appear — to be
used with disclaimers.

9 - TYPE RECOMMENDATIONS

A consistent type style is important in building recognizability and establishing an identity.

The Bliss, ITC Slimbach and Ministry Script font families have been chosen to complement the Strauss® logo mark.

These fonts should be used for all packaging, advertising, collateral and printed communications.
