

“One year ago, our medical center made a commitment to source antibiotic-free pork, beef and chicken products. One of the most difficult products to find were pre-cooked antibiotic-free beef patties.

Strauss Free Raised® Grass Fed Beef patties are tasty and very well received by our guests. I even had a customer inquire about how she could purchase this product for her son. This is a true example of a product that is improving the health of our patients, staff and community.

Thank you for ALL your help getting us this beef product!”
